Product Disclosure Statement

SECURITY INVESTMENT AND SAVINGS PLAN

This Product Disclosure Statement is provided for the purposes of supplying information to and taking applications from persons wishing to invest in the Security Investment and Savings Plan under the Rules of the Flexible Insurance Fund (the "Fund"). The Plan is a Friendly Society Insurance Bond.

The information contained in this Product Disclosure Statement is the latest available at the date of printing and except for that relating to historical comparisons is not more than 15 months old. This Product Disclosure Statement is dated and issued on 6 April, 2019 and expires on 5 April, 2020.

Please note that no arrangements for the provision of a benefit will be entered into later than 12 months after the issue date of this Product Disclosure Statement.

Managing Your Money

Consumers everywhere have a very clear vision of the financial institution and products in which they want to invest their hard-earned savings. Also they have a variety of reasons for investing, whether it be simply to build up a nest egg for their children or grandchildren, or to make their money work hard for them.

The institution in which you invest must be long-established, rock solid and its products should deliver after-tax returns which are consistently competitive. It should also have an operating culture which best matches the investor's own beliefs of how a Friendly Society should look after its members.

On any count, Foresters matches the investment criteria of the most discerning person.

Foresters was established in 1849 as a not for profit organisation. The founding principles of the Society include the provision to members, their dependents and widows/widowers, of facilities and benefits for their relief and maintenance in the case of death, sickness, disability, accident, retirement and old age.

The Society has never wavered from its original objectives to serve small communities or groups of individuals and continues to uphold the traditional values under which it was established.

Our *Security Investment and Savings Plan* is one of a range of professionally managed and prudentially sound investment products.

Foresters Financial Security Investment and Savings Plan

The Foresters Financial Security Investment and Savings Plan is a capital guaranteed, tax effective, flexible life insurance policy that allows for lump sum investments as well as regular contributions. The Plan provides for investors who wish to secure their future and are looking for the security of a capital guaranteed investment, with easy access to their funds at any time, for a range of future needs, such as:

- overseas holidays
- education expenses
- a new car
- a comfortable retirement
- any special purpose

Investment monies are invested in the Society's Flexible Insurance Fund.

How the Security Investment and Savings Plan works

Term of the Plan

Select any term between 10 and 40 years. Under current taxation law all bonuses allocated to your account will be tax free in your hands after 10 years.

Your policy's nominal maturity date will be automatically extended unless you have given the Society written instructions to the contrary. Automatic policy extension does not restrict your entitlement to withdraw at any time.

Choose the contribution option that suits you.

- Lump Sum Investment*
- the minimum initial investment is only \$500
 - additional lump sum investments may be made as often as you wish provided the additional amounts received in any year do not exceed 125% of those received in the previous year
- Regular Contribution Plan*
- the minimum initial investment is only \$500
 - the minimum monthly investment is as little as \$20
 - you can increase your regular contributions whenever you wish provided the additional amounts received in any investment year do not exceed 125% of those received in the previous investment year
 - minimum balance \$500

You can also choose the no fuss way to ensure you maximise your investment potential and have your contributions deducted directly from your bank/financial institution account or payroll. It is simple, just complete the Direct Debit Authority Form enclosed in the Product Disclosure Statement, forward it together with your application form and the initial investment amount and we will take care of it for you.

- Capital Guarantee*
- Your investment in the Security Investment and Savings Plan is “capital guaranteed” which means all your contributions (less fees and duties payable) and declared bonuses are guaranteed to be paid on full surrender or maturity.

Benefits of the Security Investment and Savings Plan

- Accessibility*
- One of the benefits of investing in the Security Investment and Savings Plan is that should the need arise, you may partly or fully surrender your policy regardless of the investment term you choose and without early surrender penalty or a withdrawal fee.

- Annual Bonuses*
- Foresters declares an annual bonus at 30 June each year. The bonus is based on the investment earnings of the Fund, less fees, taxes and any required transfers to statutory reserves.

The appointed Actuary values the fund and makes recommendations as to the annual bonus rate, which is subject to approval by the Board of Directors.

Once allocated, bonuses form part of your capital guaranteed investment and contribute to increased future bonuses.

- Tax Saving Options*
- During the first 12 months you may add further amounts to your policy without limit restrictions. In subsequent years, you can add to your

investment provided that the additional amounts contributed in any one investment year do not exceed 125% of total amounts contributed in the previous investment year.

By making further contributions to your policy throughout the term, you receive all allocated bonuses free of tax after 10 years from the date of initial investment. This means you could make a contribution in the 9th year of your policy and benefit from personal tax-free growth on that amount one year later.

If no additional investment or contribution is made in any policy year after the first anniversary, the right to add on is lost.

Tax Free Benefit on Maturity

Your initial and subsequent contributions (less fees and duties payable), plus all bonuses allocated to your policy account during the term of the policy, become tax free in your hands after ten years.

Policies may be maintained beyond the nominated maturity date, continuing to earn bonuses and retaining full tax paid status. You can even continue to add to your investment with full post ten year tax benefits, provided you have maintained your add on rights during the policy term.

In the event of death of the person named as the 'life assured' under the policy, the policy terminates immediately and the proceeds are received tax-free in the hands of the investor (if the investor were not the 'life assured') or the investor's estate (if the investor were the 'life assured').

Naturally, your funds are available in full or in part at any time according to your needs.

Estate Planning Benefits

You can use your policy to assist with your estate planning.

Policies held individually by you allow you to nominate beneficiaries to whom the proceeds will be payable on your death. One or more beneficiaries may be nominated and these may be changed or revoked by you in writing during your lifetime.

In cases where beneficiaries have been nominated, the policy proceeds do not form part of your estate. Therefore, there is no need for your executors to obtain probate for claim settlement so payment is available with minimal delay.

Accounts held in joint names do not allow the nomination of beneficiaries.

Investors Under 18

Investments may be made by persons under 18 years with their parent's or legal guardian's written consent. However minors who are aged under 18 years are only permitted to assign, discharge or surrender their investment provided they have their parent's or legal guardian's consent.

Assignment of Policy

You may assign your policy and transfer ownership to another person or company at any time. Once your assignment is registered by Foresters,

you no longer have any control over the account or entitlement to its proceeds, but your membership of Foresters will continue.

Assigning a policy may have tax and/or pension implications and it is recommended that professional advice be obtained before making a decision in this regard.

Joint Ownership

Joint ownership can be an effective estate planning strategy. Should one member die, the surviving member automatically becomes the sole member. This can be helpful in avoiding lengthy and perhaps costly estate procedures. We recommend that if you are considering joint membership, you should seek professional advice.

Social Security

Under current Centrelink and the Veterans' Affairs Income Test and deeming provisions, your investment will be grouped together with other financial assets to determine your social security or veterans pension/allowance entitlement. A pensioner's investment in the Security Investment and Savings Plan will also be assessed under the Asset Test at its current investment value.

It is recommended that you seek advice from an independent professional adviser to determine how the Income and Assets test rules might affect your pension entitlement position.

Payment of Benefit

You can withdraw some or all of your account balance whenever you wish by sending a completed "Surrender Application" form to the Society. Your withdrawal will be processed and a cheque given or sent to you or funds credited to your nominated bank, building society or credit union account (in normal circumstances within 5 working days of receipt of your request).

For full surrender or maturity of your policy the benefit is calculated by adding:

- the value of your policy (comprising all contributions, net of management fees and stamp duties payable and any partial surrender payments) plus declared bonuses; and
- the interim bonus rate applied to the account for the period since the date of the last bonus declaration to surrender/maturity date.

If you withdraw all of your funds prior to the minimum investment term of 10 years, you will only receive the accrued interim bonus for that part of the financial year your funds were invested. The interim bonus is recommended by the Society's Actuary and approved by the Board of Directors.

Investment of the Fund

A Security Investment and Savings Plan offers you peace of mind because your investment plus accumulated bonuses are capital guaranteed. This guarantee is provided by the conservative nature of the Fund's authorised investments and the continuous solvency reserving maintained in accordance with the applicable Friendly Societies legislation and guidelines. The solvency requirements are in place to protect your investment from any adverse fluctuations in investment market values.

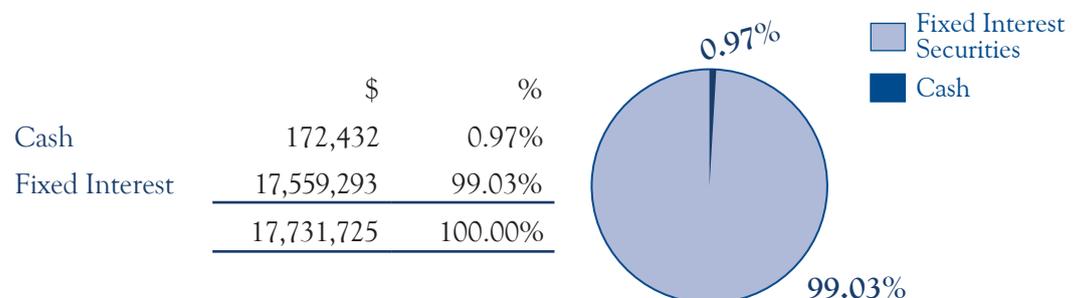

Investment Portfolio Structure

The investment objective of the Fund is to provide investors with competitive returns by investing in assets authorised by the Rules. Authorised investments for the Fund include:

- Government and semi-Government securities
- Bank backed securities
- Mortgage backed securities
- Bank bills and term deposits
- Loans or promissory notes
- First mortgages
- Loans to a member on the security of the interest of the member in the Fund
- Cash

Investments are made by Foresters based on the recommendations of the appointed investment fund manager, Pitcher Partners Investment Services Pty Ltd. Investment decisions are based on investment adviser's assessment of the economic environment and anticipated movements in interest rates.

The investment structure of the fund as at 31 December 2018 was:

Asset Allocation Range

The fund may invest within the following asset allocation range:

- Cash & Fixed Interest Securities up to 100%

Bonus Performance

The Flexible Insurance Fund was the forerunner of the Security Investment and Savings Plan and was established on 15 September, 1978. The Total Fund Assets at 31 December, 2018 were \$17,731,725.

Over the long term, the Security Investment & Savings Plan has achieved excellent investment returns considering the investment market conditions at that time.

Tax-paid bonus rate history June 2014 to June 2018

Year	June 14	June 15	June 16	June 17	June 18
Bonus p.a.	2.20%	2.10%	1.20%	1.40%	0.60%

“With market fluctuations, no guarantee of future bonus is given or can be implied”.

Fees

Entry / Exit Fee

There are no entry or exit fees.

Management Fee

To cover the cost of administering the Fund, Foresters currently charges an annual fee of 1.5% on the average balance of the Fund's gross assets. This fee is calculated and deducted on a monthly basis. All administration and investment management expenses are met by Foresters. The management fee may vary from time to time in accordance with the Rules of the Fund.

Direct Fund Charges

Stamp duty on investment transactions, financial institution duties, bank debit taxes, brokerage fees, account keeping fees, and any other taxes or statutory charges that are subsequently introduced will be charged against the Fund's investment earnings monthly in arrears.

Stamp Duty

Stamp Duty may be payable on entry to the Security Investment and Savings Plan depending upon your State or Territory of residence, and will be debited from your account.

Tax Considerations

Foresters currently pays income tax at the rate of 30% on Fund income. Where the bond is surrendered within 10 years, the accrued bonus component will be assessable as shown at your marginal rate less a rebate at the Fund's tax rate of 30%. If your tax rate is less than the Fund's tax rate this will provide a tax credit which may be applied against tax payable on other assessable income in that year.

Assessability of Bonuses on surrender

After 10 years:	Zero tax applies to accrued bonuses
Year 10:	1/3 of accrued bonuses are assessable
Year 9:	2/3 of accrued bonuses are assessable
Years 1 to 8:	accrued bonuses are fully assessable

Proceeds of bonds received as a result of death, disability or illness of the nominated 'life assured' or unforeseen serious financial difficulties experienced by the investor are tax-exempt.

The Goods & Services Tax (GST) was introduced on 1 July, 2000. The GST will not apply to investments made in or benefits paid by the Fund, or to any investment fees charged to the policyholder by Foresters. However, the Society will incur GST on its own costs and this may result in an increase in the annual management fee currently charged.

The taxation information contained in this Product Disclosure Statement reflects a general understanding of existing and proposed tax rules which are relevant to your policy. As with any individual investment decision, we would recommend investors obtain prior and appropriate professional advice.
