1. What is a Funeral Bond?

A funeral bond is a specially designed, tax paid investment to set aside money that can only be used to cover the funeral costs of a Life Insured. Investors can choose a funeral director, or let their family decide when needed. It also helps to protect families from the financial burden of a funeral, with no medical restrictions.

Key Features

A tax paid investment

Tax on the income earned on your investment is paid within the Fund, so you do not need to declare any income earned on your investment.

Set aside savings for funeral costs

Your savings are specifically set aside to cover funeral costs and the investment proceeds can only be released after the death of the Life Insured to pay for the Life Insured's funeral expenses. Any excess funds after payment of the funeral expenses, are paid to the Life Insured's estate (when the member is also the Life Insured) or to the Investor (if the Bond has been taken out by someone who is not the Life Insured).

Maximise your pension

Funeral costs you set aside in the Bond up to \$14,000 (as at 1 July 2022) do not count in your assets test for payments from Services Australia (i.e. Age Pension, Carer Payment or Disability Support Pension).

2. Responsible Investing

Foresters Financial believes investment decisions that consider responsible investment criteria, such as environmental, social and governance (ESG) factors, will lead to better outcomes by generating sustainable, long-term returns. Through our

responsible investment decisions, Foresters Financial believes that we can play a role in influencing change towards a more sustainable future. By investing in companies with a strong ESG profile we are supporting sustainable organisations that are more likely to enhance the return profile of our portfolios.

ESG factors including labour standards, are considered by our investment managers as part of their investment selection process. Foresters' Responsible Investment Policy sets out our framework for the selection of sustainable investments with reference to ethical screening and ESG factors. Ongoing compliance oversight reporting is periodically provided to Foresters to allow us to measure the sustainable performance of our investment portfolios.

External fund managers have their own policies outlining the extent to which labour standards and ESG considerations are taken into account when making their investment decisions.

ESG factors considered when investing include a broad set of issues including but not limited to:

Environmental

- Climate Change
- Natural Capital
- Pollution & Waste
- Environmental Opportunities

Social

- Human Capital
- Product Liability
- Stakeholder Opposition
- Social Opportunities

Governance

- Corporate Governance
- Corporate Behaviour

Our investment manager uses responsible investment principles such as proxy voting to positively influence company behaviour, and negative screening to exclude direct investments in certain sectors, companies or practices based on ethical standards.

Foresters Financial will consider impact investments as part of the portfolio of investments with the intention of creating positive, measurable social and environmental impact as well as a comparable financial return for that asset class.

You should read the important information about Responsible Investing before making a decision. Go to our website to view our Responsible Investing Policy. The material relating to Responsible Investing may change between the time when you read this PDS and the day when you acquire the product.

A portion of the management fee received is donated to the Foresters Financial Community Grants Account, which is specifically used to grant money to organisations that will create lasting positive social change.

3. Who Can Invest in the Bond?

Applicant Types

The Funeral Benefit Funds allows our Bond to have the following applicant types:

Single or Joint Policy

You can have a Bond in the name of one or two individuals.

A Bond with two individuals will be a joint policy. For a joint policy, upon the death of the first of the joint policy holders, the Total Investment Payable will be paid out in full to meet their funeral expenses. The surviving joint policy holder will then have to enter into a new Bond in order to meet their future funeral expenses.

Investor

You, as the Investor, may take out a Bond in your name as the legal owner of the Bond, and select another person as the different Life Insured (usually a family member or close friend).

Power of Attorney

A person appointed under a Power of Attorney ('POA') can take out a Bond on behalf of the donor; the donor being the person who has appointed the attorney under a POA.

All persons taking out a Bond will become members of Foresters Financial and of the Funeral Benefit Funds and will remain members until their membership ceases in accordance with the Funeral Benefit Funds Rules.

Life Insured

A Life Insured is the person whose life is to be insured on the policy. Upon the death of the Life Insured, or the last Life Insured if more than one person is selected, the policy will mature. If no Life Insured is selected then the life to be insured will default to the policy owner. Please note that an Investor must select a different person to be the Life Insured otherwise they will become the Life Insured.

Beneficiary Options

Non-Assigned Funeral Bond

A Non-Assigned Funeral Bond option is where you do not nominate a specific funeral director or make any specific pre-arrangements in regards to a funeral. Details of your investment will be provided to you as the Fund member from time to time.

Nominated Funeral Director

The Nominated Funeral Director option is where the Fund member has nominated a funeral director to conduct the funeral service of the Life Insured without entering into a prepaid funeral contract. The member retains their membership in the Funeral Benefit Funds until maturity of the Bond.

If the member wishes to change the Nominated Funeral Director, it can be done at any time prior to the death of the Life Insured by contacting Foresters Financial and completing a 'Change of Nominated Beneficiary Form'.

Both the member and the Nominated Funeral Director will be provided with details of the investment from time to time.

We recommend you read the details summarised in the 'Applicant Types and Beneficiary Options Explained' table on page 5, before deciding which is right for you. Also, please refer to page 16 for information about making a claim to pay funeral costs.

Funeral Bonds as part of a Prepaid Funeral Plan

If a prepaid funeral contract has been entered into, then the applicant will need to complete an application under the Foresters Financial Prepaid Funeral Plan (Prepaid Funeral Plan) Product Disclosure Statement as different terms and conditions apply (download from www.forestersfinancial.com.au).

Please Note: *It is important that you inform your family or estate representative of your investment in the Funeral Benefit Funds and your preferred funeral arrangements.*

4. Investment Options

Investing in the Bond gives you the flexibility to choose a range of investment options that provide different investment mixes.

When you take out the Bond, you will be able to select from one of three (3) investment options that suits your particular risk appetite and so grow your Bond investment to meet your future funeral service costs. Whatever investment option is chosen, you become a member of the selected underlying fund. Our three (3) investment options for the Bond, managed by our investment manager(s), are:

1. **Capital Guaranteed option (default);**
2. **Sustainable option; or**
3. **Growth option.**

You may only select one investment option and, if no option is chosen, then your Bond will be invested in the Capital Guaranteed option by default.

As with all investments, there are risks that you need to be aware of. These are outlined in the Investment Risks section of this PDS. It is important to note that there is a risk of a negative return when choosing the Sustainable or Growth investment options. As taking on more risk increases the allocation of growth assets in your investment, this also increases the risk of receiving a negative return. Based on the timing of the withdrawal of your investment when your Bond matures, you may not receive all of the funds you have contributed as a result of this risk. Please seek independent financial advice to make sure that you are selecting the right investment option to suit your financial needs.

Investment Objective

All monies invested in the Bond are held in the Fund whose objective is to provide investors with competitive returns by investing in Authorised Investments as stipulated by the Funeral Benefit Funds Rules and in accordance with the Investment Strategy of each investment option. The approved investment ranges are monitored in accordance with the Benefit Fund Rules and Foresters Financial's Responsible Investment Policy, which are managed by our Investment Manager(s).

Capital Guarantee

We offer a capital guarantee only for the Capital Guaranteed investment option. This ensures that all your contributions (less fees and duties payable) and declared bonuses are guaranteed to be paid on maturity, no matter how the investment market is performing.

Capital Guarantee explained

Capital Guarantee means that all money paid into the Funeral Benefit Capital Guaranteed Fund plus declared bonuses, less duties and fees (Away From Home Cover and funeral director GST and administration fees that may have been deducted) is secure. The guarantee is supported by a conservative investment policy which is monitored closely by Foresters Financial, its Investment Manager(s), and its Appointed Actuary and by the solvency reserves that Foresters Financial maintains in accordance with the *Life Insurance Act 1995* (Cth) and the APRA Prudential Standards issued under that Act.

Asset Allocation Ranges per Investment Option

The investment options provide a range of investments with differing investment risks, which allow you to select an option to match your risk tolerance. Investment in the different investment categories available under each investment option may be in direct investments or through approved unit trusts or managed investment schemes.

Changing Your Investment Option (Switching)

Your investment in the Bond can be transferred in its entirety between any of the three (3) investment options at any time. Only one investment option at any one time can be selected and you may incur investing transaction costs each time a switch is made.

For the market-linked investment options (Sustainable and Growth), the unit price that applies at the time a switching application is processed, is discussed further on page 10. To switch between investment options, you must complete a Switching Form which can be found at www.forestersfinancial.com.au and sent to: Foresters Financial, Reply Paid 92096, Melbourne VIC 3004 or via email: service@forestersfinancial.com.au

5. Taxation, Pension and Fees

Taxation

The investment earnings of the Funeral Benefit Funds are subject to income tax at the business tax rate (currently 30%). This tax is paid by Foresters Financial as an expense of the Funeral Benefit Funds, before the declaration and allocation of annual bonuses to the Capital Guaranteed investment option, and forms part of the calculation of unit prices for the Sustainable and Growth investment options.

However, under current tax rules, tax paid on the Funeral Benefit Funds' income is expected to be fully recovered with the final calculation of the Total Investment Payable for the Capital Guaranteed investment option. This means that the Total Investment Payable will reflect its gross, pre-tax value.

The income or growth component of the maturity pay-out will be either assessable in the hands of the estate of the Life Insured in the year of receipt (for both the single/joint and POA options) OR for the Investor, it becomes assessable income of the Investor in the year of receipt. Foresters Financial will inform either the personal legal representative (usually the estate representative) OR the Investor, if applicable, of the assessable amount.

Capital growth in the value of the Bond is not subject to Capital Gains Tax.

It is not necessary, under current taxation laws, for the member to include the amount of annual declared bonuses or investment returns in their personal tax return.

Goods and Services Tax

Goods and Services Tax (GST) does not apply to your contributions or your Total Investment Payable. However, the provision of funeral services is subject to GST. You should discuss the impact of GST on the cost of funeral services with your funeral director. GST paid to external investment managers may be passed on through unit prices.

Duty

Duty may be payable on your initial investment in the Funeral Benefit Fund depending upon your State or Territory of residence and will be deducted from your initial contribution.

Pension Entitlements

The Bond is designed to be exempt for the purposes of the assets test for payments from Services Australia (i.e. Age Pension, Carer Payment or Disability Support Pension) up to the Funeral Bond Allowable Limit. The Funeral Bond Allowable Limit as at 1 July 2022 is \$14,000, which changes every 1 July.

The Funeral Bond Allowable Limit applies to the total contribution you have invested in the Bond, net of fees and increases in value of the Bond over time. To satisfy the requirements of this legislation, the investment must be kept solely to contribute towards funeral expenses and cannot be withdrawn prior to the death of the Life Insured.

Please note that under these provisions, you are able to include the value of up to two funeral bonds provided the following criteria are met:

- You do not also have a prepaid funeral plan; and
- The combined amount invested in the Bonds does not exceed the Funeral Bond Allowable Limit.

Special exemption rules apply for couples who can each hold individual funeral bonds, provided they do not exceed the Funeral Bond Allowable Limit.

If you do hold a prepaid funeral plan, any investment in the Bond is not exempt for the purposes of the assets test for payments from Services Australia (i.e.

Age Pension, Carer Payment or Disability Support Pension). The monies invested in the Bond, under this arrangement, will be classed as an asset and will need to be counted in your assets test.

If you are an Investor, we recommend you seek independent professional advice in relation to any assets test and/or specific tax issues.

For more information, please visit www.servicessaustralia.gov.au and/or seek independent specialist financial advice.

The taxation information contained in this PDS reflects a general understanding of existing and proposed tax rules which are relevant to your bond. As with any individual investment decision, we recommend investors obtain independent professional financial and/or tax advice prior to investing in Bond.

6. Investment Risks

It is important to understand that all investments have some level of risk. Before choosing an investment, investors must consider their suitability against their personal risk tolerances and investment needs. Investors should take into account the level of risk that they are willing to take in exchange for the investment return they would like to achieve.

Seeking independent professional financial advice will assist you to formulate a strategy to manage the risks of your investment.

Specific Risks

Specific risks relating to your investment will depend on the underlying assets and volatility of those assets in each Fund of the investment options. Investment performance and the ability to declare a bonus on the Capital Guaranteed option is not guaranteed. Specific risks that relate to investing include:

Market risk is the possibility that investment option earnings and market value may suffer due to factors that impact the overall performance of financial markets in which they are invested. This can include material changes to interest rates, recessions, natural disasters, pandemics and political turmoil.

Credit risk is the risk that a counterparty will fail to

perform its contractual obligations resulting in an investment loss.

Liquidity risk is the risk that the Fund may experience difficulty in meeting its commitments associated with the payment of redemptions and fund expenses.

Inflation risk is the risk that inflation will undermine investment returns through the possibility that the cash flows from an investment won't be worth as much in the future due to a decline in purchasing power.

Investment Manager risk is the risk that the Investment Manager will not meet the expectations set under an Investment Management Agreement with Foresters Financial which may result in underperformance of the Fund in not meeting its investment objective.

Specific Asset Risks

Security specific risk is the possibility that Fund earnings may suffer due to factors that impact the performance of an individual company, industry or sector in which they are invested. This can include poor business performance, competition or industry regulatory changes, including changes to the taxation treatment of the Fund.

Cash assets whilst usually stable, have a risk of low-returns relative to a low Reserve Bank of Australian (RBA) cash rate.

Fixed Interest assets have credit risk in that the issuer of the asset may default in the repayment of principal or interest or both. Any change in interest rates may also impact the value of the asset. Mortgage-backed Investments have interest rate risk where a change in interest rates may adversely affect the value of the asset.

Mortgages and Advances have default risks in the repayment of principal or interest or both by the borrower. These assets also have interest rate risk where a change in interest rates may adversely affect the value of the asset.

Equities have risks that may affect the share price, which include economic conditions, poor management, adverse economic conditions, adverse market sentiment, and currency risk.

Property has risks that may adversely affect its value, which include adverse economic conditions, poor asset management, high vacancy rates, and tenant defaults.

Alternatives have liquidity risks due to their nature of not being easily tradable, as well as failure of projects that may result in loss of investment.

Whilst it is not possible to eliminate all investment risks, we seek to minimise and manage investment risk through the appointment of an experienced investment manager(s) whose investment mandate is to invest and manage the portfolio on behalf of Foresters Financial only in authorised investments and in accordance with an approved investment policy.

Foresters Financial's Investment Committee meets regularly to oversee the investment portfolio and its performance.

Other Risks

Taxation risk is the risk that changes to tax laws may affect the tax treatment of your investment or the Fund's taxation obligations.

Social Security risk is the risk that changes to the social security laws may affect the treatment of your investment for Social Security purposes.

Regulatory risk is the risk that changes to legislation or regulations may materially impact either Foresters Financial and/or the Fund.

7. Your Investment

Unit Pricing

Foresters Financial calculates unit prices in accordance with the valuation and unit pricing methodology prescribed in our Unit Pricing & Discretions Policy.

Unit pricing does not apply to the Funeral Benefit Capital Guaranteed Fund.

For the Funeral Benefit Sustainable Fund and the Funeral Benefit Growth Fund, a unit price is calculated by dividing each fund's net asset value by the number of units on issue in that fund.

Unit prices are usually calculated daily. Transaction requests received on a public holiday will be processed utilising the next available price.

Unit prices are calculated at the close of business.

Foresters Financial reserves the right to exercise discretions under its Unit Pricing & Discretions Policy. Discretions will be exercised equitably wherever possible. A copy of the Unit Pricing & Discretions Policy can be obtained by calling Foresters Financial.

Processing Your Application

Your application will be processed using the unit price calculated as at the close of business on the day your application is received. An application request received after the cut off time will be processed utilising the next available unit price. Upon approval of your application and receipt of cleared funds, your application will be processed within three business days.

Cleared funds for a contribution transaction must be received by the 5pm cut-off time, otherwise your application will be processed with the next available unit price.

In accordance with our Unit Pricing & Discretions Policy, Foresters Financial may suspend unit pricing or switching between investments in circumstances where the operation of financial markets are disrupted or due to other considerations outside of our control. This may affect or delay the processing of your application request and the applicable unit price.

Current Unit Prices

To obtain current unit prices you can visit www.forestersfinancial.com.au or call us on **1800 645 326**

Bonuses

Bonus is a term used to describe return or earnings on the Funeral Benefit Capital Guaranteed Fund only (being the Capital Guaranteed investment option). Every year, Foresters Financial declares an annual bonus that is applied to the value of your current investment. The bonus rate is calculated based on the fund's investment earnings, less income tax calculated at our business tax rate (currently 30%), management fees, expenses of the fund and any other required transfers to statutory reserves. The bonus rate is based on actuarial advice and is subject to approval by Foresters Financial's Board of Directors. Once approved, it becomes a declared bonus. The declared bonus is then allocated to the current value of your investment in the Funeral Benefit Capital Guaranteed Fund as at 30 June and forms part of your capital guaranteed investment and contributes to future bonuses (accumulated bonuses). The rate of Bonus may differ from year to year depending on the fund's investment earnings, fees and expenses for that year.

Interim Bonus

For investments in the Funeral Benefit Capital Guaranteed Fund that become payable within a financial year, an interim bonus rate may be paid. If a maturity claim is made after 30 June in the following financial year, but prior to the actual annual bonus rate declaration, then any declared interim bonus rate is applied from 1 July up until the date of when the investment is paid out. The interim bonus is not guaranteed and can be amended at any time; it is based on actuarial advice and is a conservative estimate of the fund's expected investment return.

Maturity Bonus

The Maturity Bonus is intended to recoup the tax paid on investment earnings during the term of the Bond (whether Capital Guaranteed or not). Its actual value will depend upon whether the Bond tax rate remains unchanged in the year of payment.

Non-Capital Guaranteed Unitised Investment Options

For these options – where returns and unit prices are calculated on a regular basis – the term Maturity Bonus is also used to refer to the after-tax amount that is applied to the value of your investment.

When a Life Insured dies – and your investment matures, the Maturity Bonus is calculated and paid in the same way as for the Capital Guaranteed non-unitised investment option.

Upon maturity, should the value of a unitised investment be less than or equal to the amount contributed during the term of the policy, the investment earnings applied could be zero or a negative amount. Should this occur, negative investment earnings will be deemed to have a zero value and no amount will be assessable for income tax purposes upon maturity. A maturity bonus is not payable in this circumstance.

Further, under current tax rules, negative investment earnings will not provide a tax-deductible amount to you.

Fees and Costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The table below shows fees and other costs that you may be charged. These fees and other costs may be deducted from your account balance, the returns on your investment or the Funds' assets as a whole. 9. Things You Need to Know

The Funeral Benefit Funds

Withdrawals

Capital Guaranteed Fund

Maturity payment of the Capital Guaranteed option:

Your benefit is calculated by adding;

- The capital component of your investment (the initial investment less GST less management fees, and less GST and admin fees where applicable); plus
- Declared bonuses and the interim bonus applied to the investment for the period since

the date of the last bonus declaration to maturity date; plus

- The amount Foresters expects to recover on the tax paid on the investment income of the Fund. The value of any tax recovered by Foresters is referred to in this document as the maturity bonus. The maturity bonus is expected to equal the tax paid on the Fund's earnings.

The maturity payment in normal circumstances will be processed within five (5) business days of receipt of a completed claim form.

Market-linked Funds

For a maturity from the Sustainable or Growth options, the benefit is calculated by multiplying the number of units held by the unit price. Unit prices are calculated daily.

The maturity claim will be processed using the unit price calculated as at the next valuation date if it is received by the close of business of the valuation date. Unit prices are calculated at the close of business of the last day of the current week (the valuation date). A maturity payment request received after the cut off time will be processed utilising the next available unit price. Maturity payments may take up to seven (7) business days to finalise.

In accordance with our Unit Pricing & Discretions Policy, Foresters Financial may suspend unit pricing or switching between investments for up to 14 days in circumstances where the operation of financial markets is disrupted or due to other considerations outside of our control. This may affect or delay the processing of your maturity payment request.

Total Investment Payable

The Total Investment Payable for the Capital Guaranteed investment option is calculated by adding the value of all contributions (net of any fees and any duty payable) and any bonuses declared and applied to the investment plus the addition of any maturity bonus (if applicable) as defined on page 11.

For the Sustainable and Growth investment options, the Total Investment Payable is calculated by multiplying the number of units held by the current unit price.
