1. What is a Prepaid Funeral Plan?

A prepaid funeral plan provides the payment security for a prepaid funeral contract between you and your funeral director (the person or organisation involved in administering your funeral service) and outlines the details and cost of your funeral therefore providing clear guidance for your loved ones. You pay for it at today's prices regardless of your medical history, which can help financially protect your family and loved ones from the cost of a funeral.

Key Features

For funeral expenses only

The investment proceeds can only be released after the death of the life insured to pay for the life insured's funeral expenses.

Predictable and secure

Once paid, your fixed price funeral expenses of your funeral service are locked in at today's prices and documents how you want your funeral to be undertaken and is subject to the terms and conditions of your contract with your funeral director.

Under prepaid funeral legislation, your investment must be securely invested in an approved fund, such as our Fund. Ownership of your investment is then transferred or assigned to your funeral director by way of payment for your funeral service.

Help to maximise your pension

Funeral costs you set aside in the Plan do not count in your assets test for payments from Services Australia (i.e. Age Pension, Carer Payment or Disability Support Pension).

Protect loved ones from inheriting your funeral costs

A funeral service can involve many costs — which a prepaid funeral plan can cover— for things like

burial or cremation fees, floral arrangements, funeral vehicles, clergy or celebrants, music fees and more. Plus, when you enter into a prepaid funeral plan, you provide clear guidance for your funeral wishes. At a challenging and emotional time for your family and your loved ones, having these decisions already decided can help to ease both financial and emotional stress.

No limit on investment amount

There is no limit on how much you can invest in a prepaid funeral plan, provided it is a reasonable estimate of the cost of your funeral expenses.

2. Responsible Investing

Foresters Financial believes investment decisions that consider responsible investment criteria, such as environmental, social and governance (ESG) factors, will lead to better outcomes by generating sustainable, long-term returns. Through our responsible investment decisions, Foresters Financial believes that we can play a role in influencing change towards a more sustainable future. By investing in companies with a strong ESG profile we are supporting sustainable organisations that are more likely to enhance the return profile of our portfolios.

ESG factors including labour standards, are considered by our investment managers as part of their investment selection process. Foresters' Responsible Investment Policy sets out our framework for the selection of sustainable investments with reference to ethical screening and ESG factors. Ongoing compliance oversight reporting is periodically provided to Foresters to allow us to measure the sustainable performance of our investment portfolios.

External fund managers have their own policies outlining the extent to which labour standards and ESG considerations are taken into account when making their investment decisions.

ESG factors considered when investing include a broad set of issues including but not limited to:

Environmental

- Climate Change
- Natural Capital
- Pollution & Waste
- Environmental Opportunities

Social

- Human Capital
- Product Liability
- Stakeholder Opposition
- Social Opportunities

Governance

- Corporate Governance
- Corporate Behaviour

Our investment manager uses responsible investment principles such as proxy voting to positively influence company behaviour, and negative screening to exclude direct investments in certain sectors, companies or practices based on ethical standards.

Foresters Financial will consider impact investments as part of the portfolio of investments with the intention of creating positive, measurable social and environmental impact as well as a comparable financial return for that asset class.

You should read the important information about Responsible Investing before making a decision. Go to our website to view our Responsible Investing Policy. The material relating to Responsible Investing may change between the time when you read this PDS and the day when you acquire the product.

A portion of the management fee received is donated to the Foresters Financial Community Grants Account, which is specifically used to grant money to organisations that will create lasting positive social change.

3. Who Can Invest in the Plan?

To invest in the Plan, you must have in place a prepaid funeral contract with a funeral director. If you have NOT entered into a prepaid funeral contract, then

please consider our Funeral Bond PDS which can be downloaded from www.forestersfinancial.com.au.

There are some items in a funeral service that funeral directors can lock-in at today's prices and there are other expenses, that because of their nature, may vary over time.

As part of the Plan, you will assign your investment to your funeral director of your choice, so that your Total Investment Payable* can be easily directed to them to pay for your funeral.

Applicant Types

Single or Joint Policy

You can have the Plan in the name of one individual, as owner, or the Plan can be owned by two individuals. For a joint policy, upon the death of the first of the joint policy holders, your investment will be paid out in full to meet the funeral expenses of the first deceased. The surviving joint policy holder will then have to enter into a new Plan, in order to meet their future funeral expenses.

Power of Attorney

A person appointed under a Power of Attorney ('POA') can take out the Plan on behalf of the donor; the donor being the person who has appointed the attorney under the POA.

Beneficiary

Assigned Funeral Plan

An Assigned Funeral Plan is a prepaid funeral contract entered into with a funeral director. Upon satisfactory evidence of your death and the funeral service having been conducted by your assigned funeral director, Foresters Financial will pay the Total Investment Payable to your contracted funeral director.

You will need to complete the Your Beneficiary section in the Application Form. Should there be a dispute at the time of your death regarding the assigned funeral director, then Foresters Financial will retain the Total Investment Payable in the Fund until the dispute has been resolved, subject at all times to the terms and conditions of your prepaid funeral contract and any applicable State or Federal legislation.

The assigned funeral director will be provided with details of your investment from time to time.

*See page 14 for Total Investment Payable explanation

Changing Your Beneficiary

If you wish to change your funeral director, as you have entered into a prepaid funeral contract and assigned the investment ownership, any change can only be acted upon with the express written consent of your contracted funeral director.

Regardless of the beneficiary, you remain a member of the Fund and of Foresters Financial. The assignment of your Plan does not give rise to a Capital Gains Tax liability or other income tax liability to you.

Please Note: *It is important that you inform your family or estate representative of your investment in the Fund and your preferred funeral arrangements.*

Contributions

Foresters Financial accepts contributions either as one-off (initial) or ongoing (instalments) payments, using a variety of payment methods, such as BPAY (bank account or credit card); deposit or Electronic Funds Transfer (EFT); direct debit from a bank account (using the Direct Debit Request Form in the Application Form); or cheque. We do not accept cash.

Your minimum contribution will need to be sufficient to cover the GST component of your Plan, plus any administration fee charged by the funeral director and, if applicable, your contribution for the Away From Home Cover. You may have the flexibility to choose your payment frequencies. Please speak to your funeral director about their prepaid funeral contract payment requirements.

4. Investment Options

Investing in the Plan gives your assigned funeral director the flexibility to choose a range of investment options that provide different investment mixes. In the PDS, each fund is also referred to as an investment option.

When you take out the Plan, you will assign ownership of your investment to your funeral director. As the assignee, your funeral director will then be responsible for choosing one of the four (4) investment options available. As the funeral director accepts the risk of providing your contracted funeral service at today's prices, they are able to select an investment option that suits their risk appetite to grow your funeral investment to best meet your future funeral service costs. Whatever investment option is chosen, you become a member of the selected underlying fund. Our four investment options managed by our investment manager(s), are:

1. **Capital Guaranteed option (default);**
2. **Sustainable option;**
3. **Growth option; or**
4. **High Growth option.**

Your funeral director may only select one investment option. If no option is specified your investment will default to the Capital Guaranteed option.

If a non Capital Guaranteed option is selected by your funeral director, there is a risk of a negative return. As with all investments, there are risks that you need to be aware of. These are outlined in the Investment Risks section of this PDS.

Investment Objective

All amounts invested into the Plan are held in the Fund whose objective is to provide investors with competitive returns by investing in Authorised Investments as stipulated by the Funds' Rules and in accordance with the Investment Strategy of each Investment Option. The approved investment ranges are monitored in accordance with the Benefit Fund Rules and Foresters Financial's Responsible Investment Policy, which are managed by our Investment Manager(s).

Capital Guarantee

We offer a capital guarantee only for the Capital Guaranteed investment option. This ensures that all your contributions (less fees and duties payable) and declared bonuses are guaranteed to be paid on maturity, no matter how the investment market is performing.

Capital Guarantee explained

Capital Guarantee means that all money paid into the Funeral Benefit Capital Guaranteed Fund plus declared bonuses, less duties and fees (Away From Home Cover and funeral director GST and administration fees that may have been deducted) is

secure. The guarantee is supported by a conservative investment policy which is monitored closely by Foresters Financial and its Actuary and by the solvency reserves that Foresters Financial maintains in accordance with the *Life Insurance Act 1995* (Cth) and the APRA Prudential Standards issued under that Act.

Asset Allocation Ranges per Investment Option

The investment options provide a range of investments with differing investment risks, which allow your assigned funeral director to select an option to match their risk tolerance for the funding of your prepaid funeral contract under the Plan. Investment in the different investment assets available under each investment option may be in direct investments or through approved unit trusts or managed investment schemes.

Current Investment Information

You can obtain up-to-date investment information, including the asset allocation and historical bonus rates for the Capital Guaranteed Option and unit prices for the Sustainable, Growth and High Growth Options of the Fund, by visiting www.forestersfinancial.com.au or by calling us on **1800 645 326** (free call).

Please note: Past performance cannot be taken as a guide to future returns. Future bonus rates of the Capital Guaranteed option of the Fund and unit prices for the Sustainable, Growth and High Growth Options of the Fund are not guaranteed and may be subject to fluctuations.

Changing Your Investment Option (Switching)

Your investment in the Plan can be transferred in its entirety between any of the four (4) investment options by your assigned funeral director, at any time. Only one investment option at any one time can be selected for the Plan. The Plan may incur investing transaction costs each time a switch is made.

For the market-linked investment options (Sustainable, Growth and High Growth), the unit price that applies at the time a switching application is processed, is discussed further on page 8. To switch between investment options, the assigned funeral director must complete a switching form which can be found at www.forestersfinancial.com.au and sent to: Foresters Financial, PO Box 7702, Melbourne VIC 3004 or via email: service@forestersfinancial.com.au

5. Taxation, Pension and Fees

Taxation

The investment earnings of the Fund is subject to income tax at the business tax rate (currently 30%). This tax is paid by Foresters Financial as an expense of the Fund before the declaration and allocation of annual bonuses to the Capital Guaranteed investment option, and forms part of the calculation of unit prices for the Sustainable, Growth and High Growth investment options.

However, under current tax rules, tax paid on the Funds' income is expected to be fully recovered with the final calculation of the Total Investment Payable for the Capital Guaranteed investment option. This means that the Total Investment Payable will reflect its gross, pre-tax value. As you have assigned your investment under the Plan, then your total investment becomes payable to your assigned (contracted) funeral director upon your death and your estate will not be assessed. Your assigned funeral director will be assessed on the receipt of the Plan proceeds as normal business income in the year of payment. Growth in the value of your Plan is not subject to Capital Gains Tax.

It is not necessary, under current taxation laws, for the member to include the amount of annual declared bonuses or investment returns in their personal tax return.

The taxation information contained in this PDS reflects a general understanding of existing and proposed tax rules which are relevant to your Plan. As with any individual investment decision, we recommend investors obtain independent professional financial and/or tax advice prior to investing.

Goods and Services Tax

Goods and Services Tax (GST) does not apply to your contributions or your Total Investment Payable. However, the provision of funeral services is subject to GST. You should discuss the impact of GST on the cost of funeral services with your funeral director. GST paid to external investment managers may be passed on through unit prices.

Duty

Duty may be payable on your initial investment in the Fund depending upon your State or Territory of residence and will be deducted from your initial contribution.

Pension entitlements

Monies invested in the Plan are designed to be exempt for the purposes of the assets tests for payments from Services Australia (i.e. Age Pension, Carer Payment or Disability Support Pension). To satisfy the requirements of this social security legislation, your investment must be kept solely to contribute towards your funeral expenses and must be a reasonable estimate of those expenses and cannot be withdrawn prior to the death of the Life Insured. Subject to these provisions, the entire amount of your investment in the Plan to meet fixed funeral expenses will be deemed an exempt asset.

For more information, please visit www.servicessaustralia.gov.au or seek specialist advice.

6. Investment Risks

It is important to understand that all investments have some level of risk. Any investment option you choose must be considered against your risk tolerances and investment needs, taking into account the level of risk willing to be taken in exchange for the investment return sought.

It is important to note that as your Plan is assigned to your contracted funeral director, they become the owner of the Plan and ultimately the entity entitled to the Plan's investment proceeds, and as such, will bear any risk associated with your investment in the Plan.

The funeral director has an ongoing obligation under your prepaid funeral contract to provide your selected funeral arrangements irrespective of the maturity value of the Plan assigned to the funeral director.

Foresters Financial is not a party to your prepaid funeral contract and therefore cannot guarantee the performance of any market-linked investment options chosen by your funeral director should you cancel your prepaid funeral contract and/or reassign your investment to another funeral director.

Seeking independent professional financial advice will assist you to formulate a strategy to manage the risks of your investment.

Specific Risks

Specific risks relating to your investment will depend on the underlying assets and volatility of those assets in each Fund of the investment options. Investment performance and the ability to declare a bonus on the Capital Guaranteed Option is not guaranteed. Specific risks that relate to investing include:

Market risk is the possibility that investment option earnings and market value may suffer due to factors that impact the overall performance of financial markets in which they are invested. This can include material changes to interest rates, recessions, natural disasters, pandemics and political turmoil.

Credit risk is the risk that a counterparty will fail to perform its contractual obligations resulting in an investment loss.

Liquidity risk is the risk that the Fund may experience difficulty in meeting its commitments associated with the payment of redemptions and fund expenses.

Inflation risk is the risk that inflation will undermine an investment's returns through the possibility that the cash flows from an investment will not be worth as much in the future due to a decline in purchasing power.

Investment Manager risk is the risk that the Investment Manager will not meet the expectations set under an Investment Management Agreement with Foresters Financial which may result in underperformance of the Fund in not meeting its investment objective.

Specific Asset Risks

Security specific risk is the possibility that Fund earnings may suffer due to factors that impact the performance of an individual company, industry or sector in which they are invested. This can include poor business performance, competition or industry regulatory changes, including changes to the taxation treatment of the Fund.

Cash assets whilst usually stable, have a risk of low-returns relative to a low Reserve Bank of Australia (RBA) cash rate.

Fixed Interest assets have credit risk in that the issuer of the asset may default in the repayment of principal or interest or both. Any change in interest rates may also impact the value of the asset. Mortgage backed Investments have interest rate risk where a change in interest rates may adversely affect the value of the asset.

Mortgages and Advances have default risks in the repayment of principal or interest or both by the

borrower. These assets also have interest rate risk where a change in interest rates may adversely affect the value of the asset.

Equities have risks that may affect the share price, which include economic conditions, poor management, adverse economic conditions, adverse market sentiment, and currency risk.

Property has risks that may adversely affect its value, which include adverse economic conditions, poor asset management, high vacancy rates, and tenant defaults.

Alternatives have liquidity risks due to their nature of not being easily tradable, as well as failure of projects that may result in loss of investment.

Whilst it is not possible to eliminate all investment risks, we seek to minimise and manage investment risk through the appointment of an experienced investment manager(s) whose investment mandate is to invest and manage the portfolio on behalf of Foresters Financial only in authorised investments and in accordance with an approved investment policy.

Foresters Financial's Investment Committee meets regularly to oversee the investment portfolio and its performance.

Other Risks

Taxation risk is the risk that changes to tax laws may affect the tax treatment of your investment or the Fund's taxation obligations.

Social Security risk is the risk that changes to the social security laws may affect the treatment of your investment for Social Security purposes.

Regulatory risk is the risk that changes to legislation or regulations may materially impact either Foresters Financial and/or the Fund.

7. Your Investment

Unit Pricing

Foresters Financial calculates unit prices in accordance with the valuation and unit pricing methodology prescribed in our Unit Pricing & Discretions Policy.

Unit pricing does not apply to the Funeral Benefit Capital Guaranteed Fund.

For the Funeral Benefit Sustainable Fund, Funeral Benefit Growth Fund and the Funeral Benefit High Growth Fund, a unit price is calculated by dividing each fund's net asset value by the number of units on issue in that fund.

Unit prices are usually calculated daily. Transaction requests received on a public holiday will be processed utilising the next available price.

Unit prices are calculated at the close of business.

Foresters Financial reserves the right to exercise discretions under its Unit Pricing & Discretions Policy. Discretions will be exercised equitably wherever possible. A copy of the Unit Pricing & Discretions Policy can be obtained by calling Foresters Financial.

Processing Your Application

Your application will be processed using the unit price calculated as at the close of business on the day your application is received. An application request received after the cut off time will be processed utilising the next available unit price. Upon approval of your application and receipt of cleared funds, your application will be processed within three business days.

Cleared funds for a contribution transaction must be received by the 5pm cut-off time, otherwise your application will be processed with the next available unit price.

In accordance with our Unit Pricing & Discretions Policy, Foresters Financial may suspend unit pricing or switching between investments in circumstances where the operation of financial markets are disrupted or due to other considerations outside of our control. This may affect or delay the processing of your application request and the applicable unit price.

Current Unit Prices

To obtain current unit prices you can visit www.forestersfinancial.com.au or call us on 1800 645 326.

Bonuses

Bonus is a term used to describe return or earnings on the Funeral Benefit Capital Guaranteed Fund only (being the Capital Guaranteed investment option). Every year, Foresters Financial declares an annual bonus that is applied to the value of your current investment. The bonus rate is calculated based on the fund's investment earnings, less income tax calculated at our business tax rate (currently 30%), management fees, expenses of the fund and any other required transfers to statutory reserves. The bonus rate is based on actuarial advice and is subject to approval

by Foresters Financial's Board of Directors. Once approved, it becomes a declared bonus. The declared bonus is then allocated to the current value of your investment in the Funeral Benefit Capital Guaranteed Fund as at 30 June and forms part of your capital guaranteed investment and contributes to increased future bonuses (accumulated bonuses). The rate of Bonus may differ from year to year depending on the fund's investment earnings, fees and expenses for that year.

Interim Bonus

For investments in the Funeral Benefit Capital Guaranteed Fund that become payable within a financial year, an interim bonus rate may be paid. If a maturity claim is made after 30 June in the following financial year, but prior to the actual annual bonus rate declaration, then any declared interim bonus rate is applied from 1 July up until the date of when the investment is paid out. The interim bonus is not guaranteed and can be amended at any time; it is based on actuarial advice and is a conservative estimate of the fund's expected investment return.

Maturity Bonus

The Maturity Bonus is intended to recoup the tax paid on investment earnings during the term of the Plan. Its actual value will depend upon whether the tax rate for the Plan remains unchanged in the year of payment.

Non-Capital Guaranteed Unitised Investment Options

For these options – where returns and unit prices are calculated on a regular basis – the term Maturity Bonus is also used to refer to the after-tax amount that is applied to the value of your investment.

When a Life Insured dies and your investment matures, the Maturity Bonus is calculated and paid in the same way as for the Capital Guaranteed non-unitised investment option.

Upon maturity, should the value of a unitised investment be less than or equal to the amount contributed during the term of the policy, the investment earnings applied could be zero or a negative amount. Should this occur, negative investment earnings will be deemed to have a zero value and no amount will be assessable for income tax purposes upon maturity. A maturity bonus is not payable in this circumstance.

Further, under current tax rules, negative investment earnings will not provide a tax-deductible amount to you.

Fees and Costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Both Management Fees and Direct Fund Charges reduce the investment earnings of the Fund.

Dishonour Fee

We currently do not charge dishonour fees when we are unable to process direct debit transactions or deposit cheques due to cancellations or insufficient funds. However, we may choose to deduct dishonour fees from your account in the future.

Funeral Director Marketing Assistance

Marketing assistance may be provided to funeral directors from the Foresters Financial Management Fee, however no commission payments are paid.

Financial Adviser Service Fees

Foresters Financial may offer this product to you through a financial adviser. If you wish to pay your financial adviser a service fee, you will need to do so directly. These are not fees associated with Foresters Financial and we recommend you speak to your financial adviser. Foresters Financial does not pay any fees or commissions to financial advisers in its own right. Foresters may however provide other support

and soft dollar benefits to financial advisers, such as product training, invitations to engagement and business development events, etc.

Fee Changes

Foresters Financial may increase its fees to the maximum allowed in the Fund Rules, provided it gives policy owners ninety (90) days' notice in writing of the change.

8. Away From Home Cover (Optional)

Foresters Financial's Away From Home Cover protects your loved ones from the associated transportation costs, back to your chosen funeral director, up to a maximum of \$3,000, should you die whilst traveling within Australia, provided their premises are within 100km from your permanent residence.

What's Covered

- Suitable container for transportation;
- Cost for preparing the body for transportation;

- Costs associated with obtaining the appropriate documentation.

The Away From Home Cover is a product of the Foresters Financial Funeral Transfer Fund. Persons taking out a policy will become members of the Funeral Transfer Fund and of Foresters Financial. Membership and cover will cease if the member dies and is not entitled to make a claim or if their personal legal representative (usually the estate representative) makes a claim which is paid.

9. Things You Need to Know

The Funeral Benefit Fund

Withdrawals

Capital Guaranteed Fund

Maturity payment of the Capital Guaranteed option:

Your benefit is calculated by adding;

- The capital component of your investment (the initial investment less GST less management fees, and less GST and admin fees where applicable); plus
- Declared bonuses and the interim bonus applied to the investment for the period since the date of the last bonus declaration to maturity date; plus

- The amount Foresters expects to recover on the tax paid on the investment income of the Fund. The value of any tax recovered by Foresters is referred to in this document as the maturity bonus. The maturity bonus is expected to equal the tax paid on the Fund's earnings.

The maturity payment in normal circumstances will be processed within five (5) business days of receipt of a completed claim form.

Market-linked Funds

For a maturity from the Sustainable, Growth or High Growth options, the benefit is calculated by multiplying the number of units held by the unit price. Unit prices are calculated daily.

The maturity claim will be processed using the unit price calculated as at the next valuation date if it is received by the close of business of the valuation date. Unit prices are calculated at the close of business of the last day of the current week (the valuation date). A maturity payment request received after the cut off time will be processed utilising the next available unit price. Maturity payments may take up to seven (7) business days to finalise.

In accordance with our Unit Pricing & Discretions Policy, Foresters Financial may suspend unit pricing or switching between investments for up to 14 days in circumstances where the operation of financial markets is disrupted or due to other considerations outside of our control. This may affect or delay the processing of your assigned funeral director's maturity payment request.

Total Investment Payable

The Total Investment Payable for the Capital Guaranteed investment option is calculated by adding the value of all contributions (net of any fees and any duty payable) and any bonuses declared and applied to the investment plus the addition of any maturity bonus (if applicable) as defined on page 9.

For the Sustainable, Growth or High Growth investment options, the Total Investment Payable is calculated by multiplying the number of units held by the current unit price.

Keeping You Informed

When you enter into the Plan, Foresters Financial will send a confirmation letter and Certificate of Membership of Foresters Financial directly to you via

your assigned funeral director. All future information relating to your investment will be sent directly to your assigned funeral director with whom you have a prepaid funeral contract.
