27 May 2013		Policy Adoption

DEFINITIONS

Board	Foresters Financial Board of Directors
CEO	Chief Executive Officer of Foresters
CFO	Chief Financial Officer of Foresters
Committee	Foresters Financial Investment Committee
CRO	Chief Risk Officer of Foresters
Foresters	Foresters Financial Limited
Fund	Benefit or Management Fund
IA	Investment & Unit Pricing Analyst of Foresters
Investment Manager	Foresters appointed Investment Adviser and Portfolio Manager
Investment Portfolio	Investment Assets held by a Benefit Fund or the Management Fund

POLICY STATEMENT

The purpose of this policy is to document Forester's approach to the sound and prudent management of investments.

This policy forms part of the investment framework and is to be read in conjunction with:

- RM1 Risk Management Policy, Framework & Strategy
- RM-3 Internal Capital Adequacy Assessment Process (ICAAP) Summary Statement
- BO4 Investment Committee Charter
- BO8 Delegation of Authority
- OP16 Unit Pricing Policy; and
- OP17 Responsible Investment Policy.

POLICY SCOPE & OBJECTIVE

The policy applies to all investment decisions made by Foresters.

The objective is to drive long-term financial performance, manage risk and meet regulatory obligations. It is not designed to prevent breaches of APRA standards, but rather to provide a reasonable match between assets and liabilities (prevention of breaches of the APRA Capital Standards is ensured by adherence to other elements of the risk management framework, RM1 and particularly RM3).

The Board, through advisement by the Committee, will ensure that systems are in place for the effective management of each investment portfolio. It will satisfy itself that Foresters staff and investment managers are aware of the investment objectives, strategy, and parameters for each portfolio and that the investments are being managed to ensure the best possible return relative to the authorised investments of each portfolio.

RESPONSIBILITIES & ACCOUNTABILITIES

Appointed Actuary	<ul style="list-style-type: none"> • Provide advice on policy and investment strategy. • Monitor compliance with APRA prudential standards, Benefit Fund Rules, and Foresters' investment policies.
Board	<ul style="list-style-type: none"> • Approve investments and strategic commitments that may have a material effect on the assets, profits, or operations of Foresters. • Assess the performance of the Investment Committee against its Charter.
CEO	<ul style="list-style-type: none"> • Oversee compliance with the policy. • Assess investment recommendations per BO8 Delegation of Authority.
CFO	<ul style="list-style-type: none"> • Maintain investment and related policies. • Manage relationship with Investment Managers. • Perform internal and external reporting obligations. • Assess investment recommendations per BO8 Delegation of Authority.

CRO	<ul style="list-style-type: none"> • Ensure maintenance of the Risk Management Framework and monitoring and reporting.
IA	<ul style="list-style-type: none"> • Maintain investment and related policies. • Assist in management of relationship with Investment Managers. • Assess investment recommendations provided by Investment Managers. • Assist the CFO in performing internal and external reporting obligations.
Committee	<ul style="list-style-type: none"> • Consider any matters related to the investments of Foresters and its controlled entities. • Examine any matters referred to it by the Board.
Investment Manager	<ul style="list-style-type: none"> • Adhere to the Investment Management Agreement. • Advise on investment policies and strategy.

INVESTMENT MANAGER

Appointment

Foresters will utilise the services of licensed Investment Managers unless otherwise authorised by the Board.

The appointment of a new Investment Manager will only be approved by the Board following:

- The completion of a request for proposal process involving at least three Investment Managers; and
- The interview of potential Investment Managers by the Investment Committee.

Investment Managers will be appointed and governed through Investment Management Agreements (IMAs). IMAs will adhere to Prudential Standard CPS 231 – Outsourcing as required.

An IMA will not offer discretionary mandates to Investment Managers unless authorised by the Board.

The Investment Manager's reporting obligations are outlined in the Reporting section of this Policy.

Review

On an at least an annual basis:

- The Investment Committee will conduct a review of the performance of the Investment Manager.
- Management will submit a review of the Investment Manager to the Investment Committee.

RISK MANAGEMENT

Foresters' risk management strategy is documented in RM1 Risk Management, Policy, Framework & Strategy.

Foresters' risk appetite and tolerance are documented in the Risk Appetite Statement. Foresters' capital management framework is documented in RM3 ICAAP Summary Statement.

The society's risk management framework addresses investment related risks by providing for a target level of capital in recognition of risk charges applicable under:

LPS110 Capital Adequacy

LPS114 Capital Adequacy: Asset Risk Charge

LPS117 Capital Adequacy: Asset Concentration Risk Charge

Investment parameters are formulated in consultation with the Appointed Actuary in order to achieve the investment objectives of the portfolios, manage risk and ensure compliance with Benefit Fund Rules.

Investment Risks

The following details individual investment risks and how they are to be addressed.

Liquidity Risk

Liquidity of the investment portfolios will be maintained in consideration of:

- Advice received from the Appointed Actuary
- Liability profiles including projected benefit fund claims
- Meeting cash flow requirements independently of other funds
- Approved budgets and forecast expenditure; and
- The identification of a liquidity event.

Market Risk

- Foresters' assets, income and operating cash flows are exposed to changes in market interest rates. Investment Parameters for each portfolio are set in consideration of capital requirements and mark to market valuation principles.
- Equity price risk will be managed through diversification of a portfolio and security selection.
- Foreign exchange risk arises when transactions are denominated in a currency that is not the entity's functional currency. Refer Foreign Exchange section of this policy.

Credit Risk

Assets subject to credit risk must be assigned a counterparty grade.

The assignment of counterparty grades is essential to the capital adequacy assessment process.

Counterparty grades are assigned following Prudential Standard LPS001.

INVESTMENT OBJECTIVES

Investment objectives will consider each of the Fund's obligations and characteristics. The Committee may seek advice to ensure that investment objectives are appropriate.

INVESTMENT PARAMETERS

Portfolio Investment Parameters will be determined under the advice of the Appointed Actuary and in consideration of:

- Benefit Fund Rules.
- Foresters ICAAP; and
- Foresters Risk Appetite.

INVESTMENT STRATEGY

The Investment Manager shall advise on strategy alternatives to achieve the objectives of a portfolio relative to the parameters of a portfolio.

Considerations in setting investment strategy include:

- Any constraints imposed or implied by the APRA Prudential Standards and Foresters' ICAAP
- Security of investments and the need to preserve capital
- Liquidity of investments required to meet short-term liabilities
- Volatility and the variability of investment returns; and
- Diversification so as to reduce risk.

The Committee will monitor compliance with the investment strategy on a quarterly basis.

STRATEGIC ASSET ALLOCATION

Is based on risk tolerance, investment objectives and matching of assets and liabilities. The strategic asset allocations (SAA) will be optimised according to the investment parameters.

TACTICAL ASSET ALLOCATION

The Committee may approve a deviation from the SAA as Tactical Asset Allocation (TAA).

The parameters of the TAA will be determined by the Committee.

LEVERAGE

The following are not permitted as investments:

- Debt instruments; and
- Utilising debt to finance assets.

DERIVATIVES

Foresters' policy is not to invest directly in derivatives and that derivatives will not be used for trading or speculative purposes.

At the Board's discretion, Foresters may consider utilising derivatives to reduce the risk inherent in the investment portfolio.

Exposure via investment vehicles domiciled in Australia is permissible per the respective Benefit Fund Rules.

FOREIGN EXCHANGE

Foresters will only invest in foreign investment vehicles as permitted by the respective Benefit Fund Rules.

POOLED INVESTMENT FUNDS

Pooled investment funds may be utilised in compliance with Benefit Fund Rules and investment policy parameters.

If required by the Actuary, look through data must be available to assess the underlying holdings.

A lack of look through data may result in the application of higher risk charges and a breach of investment policy parameters and APRA capital requirements.

Pooled investment funds should not be used where a lack of look through data increases risk charges unless approved by the Committee.

REPORTING

Investment Manager

The Investment Manager will provide a monthly performance and compliance report for each portfolio detailing compliance with the IMA and Foresters Investment Policy.

Investment performance will be measured against benchmarks. Benchmarks will be weighted according to the asset allocation of each portfolio and are the minimum required performance as the expectation is that returns are maximised relative to a portfolio's investment parameters.

Unless specifically overridden by a Benefit Fund's rules or by the Committee, the benchmarks will include:

- Bloomberg Ausbond Bank Bill Index
- Bloomberg Ausbond Composite Bond Index
- Bloomberg Ausbond Semi-Government Bond Index

- Bloomberg/Barclays Aggregate Global Treasuries Index, \$A hedged
- Bloomberg/Barclays Aggregate Global Credit Index, \$A hedged
- MSCI ACWI ex Australia Index, Net Divs AUD Unhedged
- S&P/ASX 200 Accumulation Index

Unitised products:

- Benchmarks weighted based on the asset allocation of each portfolio.

Internal Reporting

The Investment Committee shall receive the following reports quarterly:

- Compliance Confirmation Statement (CEO and CFO)
- OP-6 Investment Policy report
- OP16 Unit Pricing and Discretions Policy report; and
- OP17 Responsible Investment Policy report.

INVESTMENT VALUATION

LPS112 Capital Adequacy: Measurement of Capital requires that investment assets be reported at fair value.

This includes term deposits in order to reflect their yield to maturity at the balance date.

STRESS TESTING

Stress testing is an important element of determining and assessing investment strategy.

Stress testing will be performed periodically that aligns with the settings determined under the Risk Management Framework or as requested by the Investment Committee.

The Appointed Actuary will be engaged, or management will have access to necessary tools, to conduct stress testing and deliver the outcomes to the Investment Committee.

The Committee will review the stress testing results and recommend any changes required to the Board.

REBALANCING

A fund's investment portfolio may vary from its strategic asset allocation due to market movements, contributions to or withdrawals from a portfolio, or a change in the nature of an investment.

The portfolio will be rebalanced to its strategic asset allocation using the following guidelines:

- A 2.5% plus or minus deviation for funds 53A and 53B; or
- In compliance with the IMA and investment policy parameters or as approved by the Committee.

GRANDFATHERING

Where asset allocations move outside investment parameters, the Committee may approve the 'grandfathering' of investments to allow for sufficient time for the investments to realign with policy parameters.

REGULATORY & GOVERNANCE REQUIREMENTS

Benefit Fund Rules
Corporations Act 2001

APRA approved Benefit Fund Rules

Requirements for Friendly Societies and Benefit Funds

PDS

Product Disclosure Statement prepared under the *Corporations Act 2001*

REVIEW OF POLICY

The Board will review this policy annually or more frequently if required.
