

Education Bond

Investment Options

Investing in our Education Bond gives you the flexibility to choose a range of investment options that provide different investment income streams to cover approved education expenses. By investing in one or more of the four (4) investment options, you become a member of the underlying fund for each investment option.

Our four investment options are managed by our investment manager(s). You can invest in one, all, or a combination of the four investment options, with a range of risk profiles to suit your risk tolerance and investment needs. The four investment options are:

1. Sustainable Option;
2. Balanced Option (Default);
3. Growth Option; and
4. High Growth Option

You can switch between these investment options at any time subject to the minimum transaction amount and maintaining a minimum balance in each option. Switching allows you to tailor your Education Bond by moving invested amounts between the four investment options.

The default investment option is the Balanced Option which will be automatically selected should you not indicate an investment option preference when applying.

Investment Objective

All monies invested into the Education Bond are held in the Fund whose objective is to provide investors with competitive returns by investing in Authorised Investments as stipulated by the Benefit Fund Rules and in accordance with the Investment Strategy for each Fund.

The approved investment ranges are monitored by our Investment Manager(s) in accordance with the Benefit Fund Rules and the applicable investment policy.

You should consider all investment risks and your risk tolerance before investing. We recommend that you speak with a financial adviser if you are uncertain how each option relates to your risk level and individual circumstances.

Asset Allocation Ranges per Investment Option

The four investment options provide a range of investments and related investment risks which allow you to select an option to match your risk tolerance. It is important to remember that each option has a minimum investment amount of \$500.

Current Investment Information

You can obtain up-to-date investment information, including the asset allocation and unit prices for the four options by visiting www.forestersfinancial.com.au or by calling us on **1800 645 326** (free call).

Please note: Past performance cannot be taken as a guide to future returns. Future unit prices for each of the options are not guaranteed and are subject to fluctuations.
