Giving Plan

Target Market Determination (TMD)

1. Purpose

A Target Market Determination (TMD) is required under section 994B of the Corporations Act 2001 (Cth). The purpose of this TMD is to describe:

- the types of customers that the Giving Plan (investment bond) is suitable for and not suitable for;
- how it is distributed; and
- when this document will be reviewed.

This TMD is not a Product Disclosure Statement (PDS) and is not a summary of the product terms and conditions. Any advice provided in this document is general advice only. It has been prepared without considering any individual customer's particular objectives, financial situation or needs.

Foresters Financial issues this product. More information about this product can be found in the PDS, which contains full details of coverage, conditions, limitations and exclusions. Consider whether the product is appropriate for you before deciding whether to buy or continue holding a policy. If you have already purchased this product, you should review the information we have provided you whenever your circumstances change.

2. Product description

The Foresters Financial Giving Plan is an investment bond designed for structured charitable giving and legacy planning. It enables policyholders to leave a charitable gift that isn't part of the estate, so funds are paid directly to the nominated charity without delay or legal challenge related to your will.

Earnings grow inside the bond, and withdrawals after 10 years are generally tax-free. Policyholders generally retain access to funds if their plans change. If the bond is held for 10 years and the contribution rules are followed, withdrawals are generally tax-free. It's one of the simplest ways to grow, protect and pass on what matters most.

Withdrawals can be made at any time. However, if a withdrawal is made in the first 10 years, some of the earnings component may be taxed (with a 30% tax offset applied).

Key product attributes

The product offers four investment options: sustainable, balanced, growth and high growth. The product provides:

- once your beneficiary is validly nominated, your gift can't be contested through will or estate challenges
- policyholders control contributions while alive; when the time comes, the gift goes directly to the nominated recipients or causes
- mid to long-term investment with a choice of different investment minimum recommended timeframes – from 3 to 10+ years
- unlimited initial investment, with annual contributions permitted up to 125% of the previous year's contribution (the 125% Rule)
- additional contributions in excess of 125% of the previous year's contribution can be made; however, the 10-year tax-free period will reset
- no obligation to contribute to the fund after the initial contribution of \$500
- the option of either a lump sum investment or regular instalments (starting from \$60 a month)
- withdrawals after 10 years are generally tax-free, provided the 125% Rule is met
- earnings taxed within the bond at a maximum rate of 30%, with no personal tax implications while invested
- ability to nominate beneficiaries, allowing direct payment outside the estate
- option to assign the bond to another person or child (Foundation Plus option) under 16 years of age without any tax consequences for the child, allowing the investor to establish a mid to long-term investment for the child or grandchild

3. Target market

Who is this product suitable for?

Customer objectives:

This product is suitable for individual or joint policyholders seeking an investment vehicle that may include:

- provides a tax-effective structure to leave a charitable gift that isn't subject to probate
- it is designed for a minimum investment horizon of three years, and can be for 10+ years
- allows regular contributions within the 125% Rule
- provides the flexibility to make partial withdrawals without personal tax obligations after 10 years
- enables estate planning flexibility by nominating beneficiaries directly
- seeking a simple, flexible way to leave a clear and lasting legacy
- nominated funds to be paid directly to the nominated beneficiaries when they pass away (because the bond is

held outside your estate, it avoids delays and disputes that can arise with traditional wills)

- seeking the flexibility to update beneficiaries or adjust contributions whenever needed
- the ability to nominate individuals, registered charities or other incorporated organisations or a combination of all three, as a beneficiary
- seeking privacy, since the details aren't part of the public record
- simplifying estate management with direct beneficiary nomination
- minimising personal tax obligations through a capped 30% investment tax rate while invested

Customer needs and financial situation

Foresters has assessed the product and formed the view that the product, including its key attributes, is likely to be consistent with the likely objectives, financial situation and needs of consumers in the target market as described above, as the features of this product are likely to be suitable for consumers with the attributes identified in this TMD.

Customer needs and financial situation

Age Suitable for customers 16 years and over
Suitable for adults wanting to assign a policy to a child under 16 years

Customer's risk and return profile (ability to bear loss)	Balanced option	Sustainable option	Growth option	High growth option
	Medium	Medium	High	High
Investment horizon	3-5 years	3-5 years	6-10 years	10+ years

Consumer's minimum need for access to capital The investment provides the flexibility to access funds at any time, offering a high degree of liquidity. However, tax may be payable on any income withdrawn, whether through partial, regular or full withdrawals, if the withdrawal is made within the first 10 years of the investment.

Financial situation As the product only has a minimum contribution of \$500, it is suitable for most individuals who meet the remaining criteria outlined in this TMD.

Who is this product not suitable for?

The investment bond may not be suitable for customers who:

- require access to funds within a short timeframe (fewer than three years)
- seek capital guarantees or low-risk fixed return products
- wish to make unrestricted annual contributions exceeding 125% of the previous year's amount
- want direct control over specific underlying assets
- investors seeking regular income distributions
- are seeking investments located outside Australia
- are under the age of 16 years

4. Distribution

How is this product distributed?

The investment bond is distributed through:
